Dajen Torralba

Software Engineer • Systems Development • AI • AWS Cloud

dajen.s.torralba@gmail.com • 056 466 0925 • Riyadh City, Kingdom of Saudi Arabia

SUMMARY

Software Engineer dedicated to building technology that feels personal and helpful. Experienced in full-lifecycle software development across diverse domains, including robotics and cybersecurity. Recently focused on engineering enterprise applications and deploying AI agents to streamline business operations. AWS Certified and a strong BS Computer Science foundation. Eager to contribute technical expertise and a passion for innovation to a purpose-driven team.

SKILLSET

Programming and Software Development
- C, C++, Python
- APIs, systems programming
- Unit & Integration Testing (PyTest, GTest)

Cloud and AWS
- AWS Cloud Practitioner concepts
- AWS AI Practitioner concepts
- Cloud architecture fundamentals & distributed computing

DevOps, CI/CD & Automation
- Docker, Bamboo pipelines, automated deployments
- Git: pull requests, branching, merge conflict resolution

AI, ML & Intelligent Systems
- Claude, AWS AI models & tooling, local LLM deployment
- ML model training, development, & evaluation (classification, regression)
- Prompt engineering, model evaluation, workflow automation
- Robotics & intelligent systems (ROS, ML model integration)
- Data Processing and Analytics

Tools & Development Environments
- VS Code, Visual Studio, JetBrains
- Jira, Confluence, Bitbucket/Stash, Docker

Leadership, Delivery, and Sofrware Engineering Practices
- Scrum Master experience & Agile/SAFe delivery

EXPERIENCE

Digital Product Associate — **Aug 2026 - Present**
Cenomi Centers — *Riyadh, Kingdom of Saudi Arabia*
- Architects internal enterprise applications enhanced with AI capabilities.
- Engineers and validates AI agents for targeted business applications.
- Executes rigorous, iterative quality assurance on emerging AI products.

Engine Software Engineer — **Aug 2025 - Mar 2026**
Trend AI / Trend Micro Inc. — *Metro Manila, Philippines*
- Developed and maintained high-performance engine and kernel modules supporting threat detection and real-time system analysis.
- Applied Windows Internals expertise and API hooking techniques to build reliable, low-latency system components.
- Contributed to AI-driven automation initiatives to improve code delivery, testing, and operational efficiency.
- Collaborated with cross-functional teams to support contingency planning, rapid response, and system reliability efforts.
- Participated in code reviews and engineering design discussions to ensure maintainability and performance.

Robotics Software Engineer — **Sep 2023 - Aug 2025**
Dyson Electronics Pte. Ltd. — *Batangas, Philippines*
- Built and optimized robotics functions including particle detection, classification, feature matching, navigation, and localization.
- Designed and maintained inference pipelines for real-time sensor processing and decision-making.
- Served as Team Lead for high-complexity epics and acted as Scrum Master, facilitating planning, ceremonies, and cross-team coordination.
- Developed unit and integration tests to ensure reliability, coverage, and regression stability across robotics modules.
- Participated in code reviews and collaborated with hardware, firmware, and algorithm teams to deliver integrated solutions.

Application Developer Intern — **Jun - Aug 2022**
Texas Instruments Inc. — *Baguio, Philippines*
- Developed a web-based data retrieval feature used across test and business functions.
- Improved departmental efficiency and productivity by an estimated 60–70% through the delivered solution.

IT Helpdesk Intern — **Jan - Mar 2019**
Al Jazirah Vehicles Agencies Co. Ltd. — *Riyadh, Kingdom of Saudi Arabia*
- Provided IT support focused on user management, system access, and troubleshooting.

Trend Vision One™ AI Security
- Supported development of AI-enhanced security components integrated into enterprise-grade detection systems.

Dyson 360 Vis Nav™ – Intelligent Machines
- Developed features and committed bug fixes under perception, mapping, and navigation domains for Dyson's IM.

Prediction of Human Central Features using a PLP-CNN Voice Input Approach (Thesis)
- Developed an end-to-end ML system capable of predicting age, sex, height, and weight from voice input.
- Built and trained deep learning models using PyTorch and TensorFlow, including preprocessing, feature extraction, and evaluation.
- Deployed the model through a lightweight web application enabling voice upload and real-time inference.

A Computer Vision Deep Learning Classifier for Obscene and Inappropriate Media Content
- Designed and trained a CNN-based classifier for image content moderation.

LICENSES AND CERTIFICATIONS

AWS Certified AI Practitioner (AIF-C01)
- Issued by Amazon Web Services
- Licensed from May 2026 - May 2029
- Validation ID: 560c01eee0bb447b8fff0b57cf965ce9

AWS Certified Cloud Practitioner (CLF-C02)
- Issued by Amazon Web Services
- Licensed from May 2026 - May 2029
- Validation ID: dd1319a0852e492588a6de2f751a08e7

LEADERSHIP & EXTRACURRICULARS

Epic Lead & Scrum Master, *Dyson Electronics Pte. Ltd.*
- Led high-complexity engineering epics, facilitated Scrum ceremonies, coordinated cross-team planning, and supported delivery of robotics intelligence features.

Graduate, *Dyson Electronics Pte. Ltd.*
- Participated on career-development programs.
- Shared insights on engineering development, leadership, and transitioning into technical roles.

Project Leader, *Saint Louis University (2019–2023)*
- Directed project execution, research initiatives, and team coordination.

Secretary-General, *Saint Louis University Congress of Louisians (2022–2023)*
- Oversaw documentation, communication, and organizational governance for the university's central student body.

Budget & Appropriations Scribe, *Saint Louis University Congress of Louisians (2021–2022)*
Vice-President, *Saint Louis University Integrated Confederacy (2021–2022)*
Chairperson, *RIGHTS Saint Louis University (2021–2022)*
Director for Communications, *Saint Louis University Executive Central Committee (2020–2021)*
Director for Media Relations, *RIGHTS Saint Louis University (2020–2021)*
Secretary, *Saint Louis University SAMCIS School Assembly (2019–2020)*

EDUCATION

Bachelor of Science in Computer Science, *Saint Louis University* **Baguio City, Philippines**
- Graduated **Cum Laude** with a GWA of 90.73.
- **JLSS Scholar** under the Department of Science and Technology (2021–2023).
- **Dean's Lister** for all academic years (2019–2023).
- Completed advanced coursework in Machine Learning, Data Mining, Algorithms, Operating Systems, Computer Vision, and Software Engineering.

Diploma in STEM, *Future Generation Philippine International School* **Riyadh City, Kingdom of Saudi Arabia**
- Graduated **With Honors** with a GWA of 93.268
- **Model Student of the Year** Awardee alongside other honorable mentions.
